

ASL-100

### **Description**

ASL-100 is all-purpose anti-seize lubricant that speeds assembly and disassembly of studs, bolts, flanges and fittings. Contain high percentage of solid lubricants to provide superior anti-gelling properties. It is recommended where copper contamination must be avoided or under conditions of extreme pressure and temperatures upto 800 °C.

### **Chemical Plants and Oil Refineries**

Pipe joints and bolting, pump housings, flanges, and coat gaskets on flanges, access doors, and heat exchangers.

### **Steel Mills**

Dragging chains, bolts for shear blades, pipe joints, furnace bolts, replacing white lead paste for sealing blast furnace flanges.

### **Power Plants**

Boilers, pumps, bearing and shaft assemblies steam and water valves, and piping.

### **Marine Service**

Boiler hand hole and manhole cover plate studs, flange bolts on pumps, valves, steam lines, installing bearings.

### **Foundries**

Core and shell molding machines, casting equipment.

### **Plastic Manufacturing**

Use to prevent seizing of cap screws, studs, and pins on all molds.

### **Papers Mills**

Both wet end and dry end, in the power plant on steam joints, steam traps, flange baskets, and bolts, cap screws, piping, pumps, bearing and coupling installations.

### **Mines (Open Pit and Deep Shaft)**

Maintenance and operation of machinery. Prevent abrasive and corrosive wear on cables, boom guides, bolts on digging and drilling equipment, trucks, and carts, in addition to slurry handling and ore processing equipment.
