

CPC-800

Description

CPC-800 is a premium quality, solvent-based rust preventive. It is designed to leave a thin oily film for positive indoor protection from rust on metal surfaces and precision parts. This product is non-staining, low in odor, water displacing and will not emulsify even in the presence of alkali. It can easily be applied by conventional brush, spray, or dip methods.

CPC-800 can be diluted with any solvent as per requirement maximum upto 80%. The resulting film is slightly more protective than oil based rust preventives.

CPC-800 is easily removed from parts with petroleum solvents or by vapor degreasing.

Application

Production equipment's of all kinds, mold saver, weapons, sporting goods, automobiles, electrical connectors, relays, circuit breakers, controls, communication assemblies, guide rails, generators, instruments, tolling, hand tools, motors, oscillators, ignitions transformers, transmitters, gears, machine tolls etc. etc.

Technical Data

<u>Characteristic</u>	<u>Value</u>
Appearance	Dark Amber Liquid
Odor	Mild Petroleum Type
Color, ASTM D-1500	3.5
Film Type	Soft Wax
Indoor storage, months	6
