

MOLYGUARD EP

Description

MOLYGUARD EP is an extreme pressure, high temperature, and non-carbonising long life-lubricating compound with high adhesive properties. Suitable for worm gear boxes and geared motors.

MOLYGUARD EP is formulated from quality synthesized base stock and additive system and fortified with highly purified micronised Molybdenum Disulphide.

Operational Benefits

- * Non-Drop, Non-Melt, Non-Carbonising
- * High adhesive properties
- * Long-term lubrication
- * Excellent load carrying characteristics
- * Inhibits oxidation, thus ensuring protection against corrosion
- * Water repellant and resistant to salt water atmosphere, alkalis and acids

Technical Data

<u>Characteristic</u>	<u>Value</u>
Color	Metallic Black
Drop point	Non-Melting
Consistency	NLGI No. 00
Service Temperature	-21° to 180°C

Must not be mixed with conventional soap based greases
